

SUMMARY OF ASTRO'S PRODUCT RANGE

SOFT FALL RUBBER:

1. ASTRO PLAYSAFE PREMIUM – THREE (3) YEAR SUPPLIER MATERIALS WARRANTY

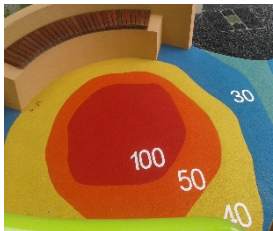

- (i) Produced from recycled Australian tyres, available in a number of colours;
- (ii) Superior to lower grade South East Asian EPDM;
- (iii) High density, seamless product, specially designed for higher endurance;
- (iv) A blending of both the 1-4mm granules and the 1-2mm granules for better and tighter surface finish;
- (v) Firm enough to support wheelchairs, walkers, golf buggies, electric scooters and outdoor furniture;
- (vi) Freshens and brightens up old, worn surfaces, enhancing them beyond their original finish.

2. ASTRO PLAYSAFE STANDARD– TWO (2) YEAR SUPPLIER MATERIALS WARRANTY

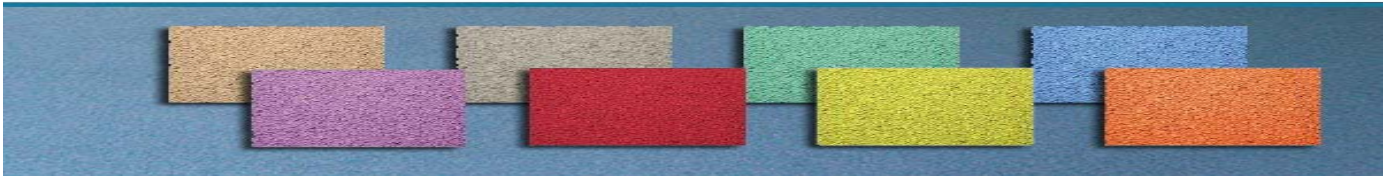

- (i) Produced from recycled Australian tyres, available in a number of colours;
- (ii) Largest colour range with highest durability;
- (iii) Best U.V. resistance with consistent colours;
- (iv) Forms a less porous surface than conventional rubber wetpour;
- (v) Great surface elasticity.

3. ASTRO PLAYSAFE TPV – FIVE (5) YEAR SUPPLIER MATERIALS WARRANTY (ASTRO IS THE ONLY PREFERRED INSTALLER IN WA)

- (i) Made in U.K. from high quality raw materials and equivalent / superior to other higher grade EPDMs imported from Europe;
- (ii) Has better colour consistency and UV stability, outlasting any other rubber across the spectrum;
- (iii) Has superior UV stability compared to any other rubber granule in the market, more appropriate to the Australian climate and will not go white or bleed like EPDMs;
- (iv) Non toxic / non allergenic and contains no moisture and is not porous like some EPDMs;
- (v) Has high elastic recovery, therefore, does not embrittle and offers a much better colour consistency throughout;
- (vi) Ideal for patio, pool side surrounds and other areas.

USED IN THE PERTH CHILDREN'S HOSPITAL AND THE MELVILLE WATER PLAYGROUND.

CRICKET PITCH COVERS

1. TURF TOP CRICKET PITCH COVER

- (i) Combination of rubber and turf bonded to each other produces a rubber cushioning effect IMPROVES IMPACT RATING;
- (ii) Turf is the protection wear layer on top of the rubber that does not allow the rubber to stretch or absorb UV;
- (iii) Built for the outdoor conditions;
- (iv) Each pitch unit can be stored as a flat pack, significantly reducing damage to the product;

2. HEAVY DUTY RUBBER

- (i) Two different grades of rubber;
- (ii) High quality polyurethane binder mixed at higher percentage than normal;
- (iii) Each panel has a tear test inspection.

SOFT FALL MULCH

- (i) Manufactured out of recycled rubber;
- (ii) Has a large range of uses including medium strips, around trees, garden areas or anywhere a permanent surface is required with a life expectancy of approx. 10 years. Easy to trim as trees grow.
- (iii) Due to wetpour installation, can be produced in any thickness and very cost effective compared to other alternatives;
- (iv) Non slippery, hygienic and easy to maintain;
- (v) In heavy traffic areas it does not scatter creating an unsightly mess and a slip hazard;
- (vi) It is dense enough to eliminate weeds and does not rot or wash away.

SOFT FALL KERBING

- (i) Made from recycled rubber;
- (ii) Cost effective and quick to install and easy to remove;
- (iii) Very flexible and perfect for areas of expected vehicle impacts, and unlike concrete it does not crack, chip or breakaway;
- (iv) Each section 2.4m long x 170mm high x 120mm wide at base;
- (v) Available in five (5) colours;
