

SOFT FALL MULCH

Soft fall mulch installed at Constable Care Child Safety Foundation, Maylands WA

ASTRO'S SOFT FALL MULCH has a large range of uses including median strips, around trees, garden areas or anywhere a permanent surface is required.

- The product is porous and allows water to drain through to the soil underneath;
- The product is dense enough to eliminate weeds. This reduces the need for spraying and maintenance.
- It can be produced in any thickness (wet pour installation). **COLOUR OPTIONS AVAILABLE.**
- It is very durable and has a life expectancy of over 10 years.
- It has the advantage that in heavy traffic areas it can not be scattered creating an unsightly mess and a slip hazard.
- Around trees it can be adjusted to allow for growth.
- It does not rot or wash away.
- It is non slippery, hygienic and easy to maintain;
- It is manufactured out of recycled materials.
- Because of its life longevity it is very cost effective as compared to other alternatives.
